Proficient Technologies

JavaScript

React.js, Redux & React Native

Node.js

HTML

CSS

Express.js

jQuery

SQL

Docker

WordPress API & Pantheon

Testing Frameworks (Jest, AVA, & Cypress)

Amazon Web Services

Terraform

Java, Spring Boot

Python

PHP

SUMMARY

Ambitious and knowledgeable full-stack software developer. Proficient in creating modern front-end applications, interacting with back-end APIs, and managing applications using cloud services and database scripts. I can confidently jump into a complicated existing code base, or build new sustainable apps that use intuitive logic. Embraces opportunities to collaborate and expand technical expertise.

FEATURED EXPERIENCE

Software Engineer, Red Ventures - Dec. 2018–Present

- Built business-critical applications from the ground up as well as created features and fixed bugs for existing applications
- Designed, tested, and debugged full API-to-UI app integrations in a team environment
- Wrote automated and specialized scripts for updating databases
- Contributor to every stage of the development process—from the initial project management discussions of a new feature all the way to its final implementation in production

FEATURED WORK

Internal Tools at CreditCards.com, Full-Stack Application Development

- Built and maintained the site's internal apps and tools using React UIs and Node.js middleware
- Improved Spring framework Java apps that function as back-end APIs interacting with React.js/Node.js front-end applications

Content Management System Scripting, Python and Node.js scripts for WordPress API

- Created scripts for transferring editorial content from a custom CMS to WordPress

Freelance Software Developer and Programming Tutor

- Fixed bugs for existing sites and created sites with contemporary designs for individuals and small businesses

EDUCATION

Full-Stack Web Development Certification, The University of Texas at Austin
Earned Certificate and Completed the Coding Bootcamp Program

Bachelor's Degree, The University of Texas at Austin - 2013–2016
Graduated with Bachelor of Arts in Government, Minor in Rhetoric and Writing
Cumulative GPA: 3.5

SKILLS

- Comprehensive team contributor, from helping Platform teams effectively run their cloud services to assisting QA teams automate their testing suites
- Knowledgeable manager of repositories with Git version control as well as a proficient user of powerful CLI tools, IDEs like WebStorm, and GUIs like Postman

EARLY EXPERIENCE

Texas Health and Human Services, Rate Analysis Department

- Project Manager (Promotion)
  January–June 2018
- Rate Analyst, SPSS software experience
  January 2017–January 2018

Legal Copyeditor
Texas Legislative Council

The Brookings Institution, Research Intern in Governance Studies
Prominent nonprofit public policy organization in Washington D.C. - Spring 2015

Plus three other internships while attending university
Lt. Governor Political Campaign, Spectrum News' Capital Tonight, & Project Vote Smart
