Proficient Technologies

JavaScript

React.js, Redux & React Native

Node.js

HTML

CSS

Express.js

jQuery

SQL

Docker

WordPress API & Pantheon

Testing Frameworks (Jest, AVA, & Cypress)
Amazon Web Services

Terraform

Java, Spring Boot

Python

PHP

SUMMARY

Ambitious and knowledgeable full-stack software developer. Proficient in creating modern front-end applications, interacting with back-end APIs, and managing applications using cloud services and database scripts. I can confidently jump into a complicated existing code base, or build new sustainable apps that use intuitive logic. Embraces opportunities to collaborate and expand technical expertise.

EXPERIENCE

Software Engineer, Red Ventures - Dec. 2018–Present
- Built business-critical applications from the ground up as well as created features and fixed bugs for existing applications
- Contributed to every stage of the development process—from the initial project management discussions of a new feature all the way to its final implementation in production
- Created and maintained many integral internal apps and tools for owned websites using JavaScript, specifically React and Node.js
- Established Amazon Web Services infrastructure for applications using Terraform code
- Improved APIs central to revenue, specifically APIs written in Java's Spring framework
- Managed a Content Management System for thousands of editorial articles using WordPress API as well as Python and Node.js scripts

Project Manager (Promotion), Texas Health & Human Services - Jan. 2018–Jun. 2018
- Managed projects related to programming Texas Medicare & Medicaid rates for the department of 150 employees

Rate Analyst, Texas Health & Human Services - Jan. 2017–Jan. 2018
- Wrote, reviewed, and refined SPSS code used for calculating annual changes in Texas Medicare & Medicaid rates

EDUCATION

Full-Stack Web Development Certification, The University of Texas at Austin
Earned Certificate and Completed the Coding Bootcamp Program

Bachelor's Degree, The University of Texas at Austin - 2013–2016
Graduated with Bachelor of Arts in Government, Minor in Rhetoric and Writing
Cumulative GPA: 3.5

SKILLS

- Comprehensive team contributor, from helping Platform teams effectively run their cloud services to assisting QA teams automate their testing suites
- Knowledgeable manager of repositories with Git version control as well as a proficient user of powerful CLI tools, IDEs including all JetBrains products, and GUIs like Postman
